Purpose of the meeting:

- Organisation of event/conference for schools, local public bodies and the citizenship;
- Organisation of relationships with schools;
- Analysis of the questionnaire sent to the applicant;

RESULTS OF MEETING

Some technical aspects were defined during the meeting:

- Acceptance of applicant's suggestion of including different kinds of technical vocational training schools (not only hospitality and accommodation schools), in order to broaden the field of investigation
- Norberto Ambrosetti e Simonetta Ceccarelli proposed to involve seventeen and eighteen years old students (school year 2016/2017). Therefore we expect the questionnaire will be delivered to about 2000 students
- Dario Fiore suggested to ask to the applicant if Italian partners (Consorzio Innopolis and Chamber of Commerce) can modify the questionnaire (uploaded in Google Drive project) in order to better fit with some distinctive features of the Italian situation
- Norberto Ambrosetti proposed a poster draft to be produced. Some aspects are not clear so Chamber of Commerce will send a mail to applicant for clarification
- Dario Fiore proposed to insert EMOR project into the Three Years Programme of Training Offer (PTOF – Piano Triennale Offerta Formativa) of schools involved
- Fabrizio Di Stante proposed to organize an event (press conference) by June. Chamber of Commerce has to assess the organizational feasibility
- Norberto Ambrosetti proposed to set up a kind of 'simulated company' (already successfully tested by Chamber of Commerce) during the next project meeting in Kaunas
